

Our school has participated successfully in the following projects:

- 2005-2006 Leonardo Da Vinci: vocational training for students at a partner school in Germany.
- 2007-2009 Comenius EUROPEAN CNC-NETWORK - TRAIN FOR EUROPE.
- 2008-2009 European Funds: Gliding course (theory and practice)- 1st edition for 48 students of avionics.
- 2010-2012 European Funds: Gliding course (theory and practice) - 2nd edition for 60 students of avionics and aircraft mechanics along with a course of Aviation English (220 hours of blended learning) for 40 students.
- 2010-2013 European Funds: High Flyer School - vocational training for 120 students of hairdressing (30 hours), mechanics and aircraft maintenance (120 hours) along with a course of English (60 hours onsite and 40 hours of e-learning- for hairdressers with elements of vocational English).
- 2013-2014 Leonardo Da Vinci: vocational training for CNC operator trainees in Berlin.
- 2013-2014 Leonardo Da Vinci: vocational training for students of hairdressing, location: Germany.
- 2014-2016 Erasmus+: vocational training for hairdressing trainees in Berlin (Germany).
- 2014-2016 Erasmus+: vocational training for mechanics trainees in Valencia (Spain) and Berlin (Germany).
- 2014-2016 Erasmus+: "Check the flow" strategic partnership of aeronautical schools from Germany, Spain, Turkey and Poland.
- 2015-2017 Erasmus+: vocational training for students of hairdressing, location: Germany.
- 2015-2017 Erasmus+: vocational training for aircraft maintenance trainees in Lisbon (Portugal).

Current projects:

- 2017-2019 Erasmus+: vocational training for hairdressing trainees, location: Berlin (Germany).
- 2017-2019 Erasmus+: vocational training for mechanics and mechatronics trainees in Valencia (Spain).
- 2017-2019 Erasmus+: vocational training for aircraft maintenance trainees in Lisbon (Portugal).
- 2017-2019 Erasmus+: "Drones beyond barriers. Safely!" strategic partnership of aeronautical schools from France, Italy, Spain, Turkey and Poland.
- 2018-2020 Erasmus+: vocational training for aircraft maintenance trainees in Lisbon (Portugal), for mechanics and hairdressers in Valencia (Spain).

EUROPEAN PROJECTS
